

CODAN CYTO[®]

A Closed Solution for Cytotoxic Drug Delivery
that is Clean, Safe and Simple

CODAN CYTO®

An Industry Health Alert

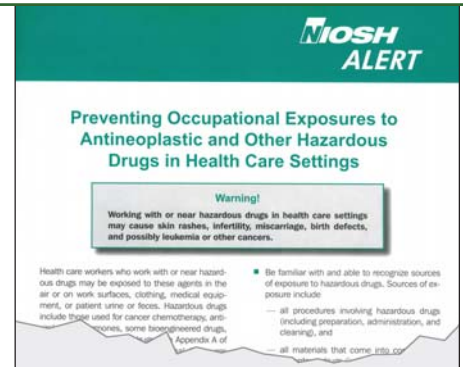

An alert has been issued by the National Institute of Occupational Safety and Health through DHHS/NIOSH Publication Nos. 2004-165 and 2004-165A that applies to all workers who handle hazardous medications. It makes, among others, the following recommendations:

- **DRUG PREPARATION**
Hazardous drugs should be prepared "...inside a ventilated cabinet designed to protect workers and others from exposure..."
- **DRUG ADMINISTRATION**
"Consider using closed-system drug transfer devices and needleless systems to protect nursing personnel."
- **SKIN PROTECTION**
Avoid skin contact by using personal protective equipment (PPE)

Why the Health Alert?

Evidence indicates that healthcare workers regularly exposed to hazardous medications may experience serious side effects such as skin rashes, reproductive problems and possibly leukemia and other cancers. Sources of contamination include breaking ampules, withdrawing drugs from vials, spray from syringes, drug reconstitution and IV push with needles and syringes.

In other words, the Health Alert makes it clear that healthcare workers, who routinely handle cytotoxic drugs, face significant health risks themselves if they are not sufficiently protected.

The CODAN Response

A Closed Solution for Cytotoxic Drug Delivery that is Clean, Safe and Simple

CODAN is the original manufacturer of cytotoxic drug protection products during IV delivery and has successfully supplied the European market for many years. CODAN has responded to the NIOSH alert in the United States to protect the pharmacists and nurses who are exposed to hazardous medications in their work environment on a regular basis, such as those used for cancer chemotherapy, anti-viral drugs and other cytotoxic agents.

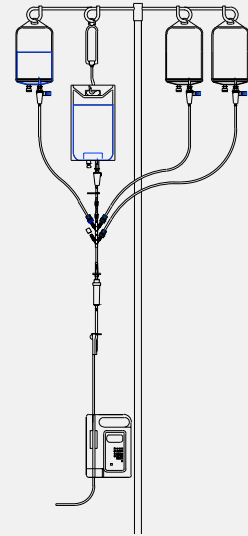

The result is **CODAN CYTO®** – a simple, yet comprehensive line of products for safe preparation and administration of cytotoxic drugs. The products are made in the United States for the North American market place.

CODAN CYTO® - From Pharmacy to Chair Side

Important Benefits:

- A Closed Solution that is Clean, Safe and Simple
- Engineered Controls
- Universal Spike Adapter Compatible with all Pump Systems
- System Greatly Reduces Sympathetic Flow
- No Disconnects = No Exposure
- No Back Priming
- No Accidental Needle Sticks
- FDA, cGMP, ISO, CE and CMDCAS Standards

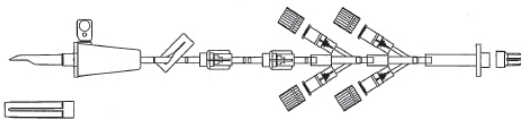

CODAN's Closed Solution calls for:

1. Preparation with CODAN Vial Spikes under a Class III enclosed, ventilated hood (BSC)
2. Closed-system administration using neutral solution barriers and no-disconnect products

Vial Spikes	Primary Connect Sets	Secondary Connect Sets	IV Extension Sets	Gravity Sets	Accessories
C-31C	CYTO-16A	CYTO-21V	CYTO-1BC	CYTO-13G	BC-128
C-32C	CYTO-17A	CYTO-22V	CYTO-2BC	CYTO-14G	BC-129
C-34C	CYTO-18A	CYTO-23V	CYTO-3BC	CYTO-41T	BC-130
C-350			CYTO-5BC		
C-355					

Product Examples:

CYTO-17A

Primary Connect Set, universal spike adapter, for connection to any primary pump set in the market, with 4 check valves as access ports and slide clamp, 50/cs

CYTO-21V

Secondary Connect Set, luer activated valve, slide clamp and CODAN OnceLock™ with CODAN FlowStop Cap™, for connection to Primary Connect Set's access port, Chemoprotect® Transport & Waste Bag included, 50/cs

"CODAN will be an environmentally conscious manufacturer of clean, safe and simple specialty products for the Infusion Therapy Market to the benefit and satisfaction of both patient and caregiver"

CODAN in the United States is a part of the European-based CODAN Group of Companies, which for more than 50 years has been a market leader in the area of IV drug delivery systems to healthcare institutions around the world.

In the North American marketplace we are known specifically for the high quality of our products and our excellent record of on-time delivery.

CODAN's core business is the manufacturing and sales of IV sets and accessories for both infusion and transfusion therapy. CODAN products are sold through a select network of distributors in the United States and Canada.

Infusion Therapy made Clean, Safe and Simple
